GENDER: "GENDER IS AWSOME BECAUSE ITS LIKE OUTER SPACE."

Ben Edtl exposes the sexual indoctrination targeting kindergarteners at Portland Public Schools

PORTLAND, Ore.— Portland Public Schools prepares to launch a 198-page lesson plan titled "Understanding our Bodies – Kindergarten Health Scientists" this fall. "This curriculum crosses the line with its anti-science, mind bending sexual indoctrination of young children starting in kindergarten," says Republican Senate Candidate Ben Edtl. Edtl is the front runner in the race to replace Democrat Senate Leader Rob Wagner.

"The Oregon Department of Education, supported by Democrat Senate Majority Leader Rob Wagner, has institutionalized the sexual and phycological abuse of young children in our public schools and must be stopped."

Under "Kindergarten Health – Unit 5 (pg17), it states "Gender is like outer space because there are as many ways to be different genders as there are stars in the Sky! Each person is different and that is cool." The curriculum was developed by trans people as "very intentional" and teachers are asked to "use the wording written on the slides." (pg26)

Second grade students are forced to ingest the idea that "Gender is Colonized." "When the United States was colonized by white settlers, their views around gender were forced upon the people already living here" (pg89) and (pg90) it states "Other cultures around the world, especially Black, Indigenous, and Brown cultures and people, view gender in different ways and use different words."

"Educating children that Black, Indigenous and Brown people view gender in different ways until the white Europeans showed up is completely senseless and blatantly racist to every type of person mentioned. Our schools should be focused on uniting our children regardless of their differences and focusing on basic education like math, reading and writing."

The curriculum states (pg113) that the lesson is written from required Oregon health standards.

"Our schools have become indoctrination camps for fringe ideologues intent on grooming children for confusion and sexual abuse."
